ABOUT US

One local partner. Five business lines.

Khulna City Engineering (KCE) is a founder-led construction, trading and engineering company supporting international projects from Khulna since 2018. We provide construction services, heavy equipment rental, materials supply, skilled manpower, engineering, interior design and premium health imports to international contractors, industrial clients, developers and private customers.

Our journey began on site, supporting leading European and Japanese engineering and EPC companies, and established Bangladeshi LPG companies, on LPG storage and terminal projects — mounded, spherical and bullet tanks. That work taught us what a project needs from a local partner: the right specification, the right materials and the right time.

01**CONSTRUCTION**

Industrial, civil and general construction, heavy equipment rental and skilled manpower on a project or work-order basis.

02**TRADING & SUPPLY**

Pipes, fittings, valves, instrumentation, renewable batteries, refrigerated air dryers, tools, PPE and construction materials.

03**ENGINEERING**

Engineering assignments sourced through established European and Japanese engineering companies and our energy-sector partners.

04**INTERIOR DESIGN**

Concept, 3D visualisation and turnkey fit-out for homes, offices, showrooms and commercial spaces.

05**PREMIUM HEALTH IMPORTS**

Original avocado oil, Rwandan and African coffee, and macadamia nuts — premium, imported and authentic.

OUR VALUES

Quality · Safety · Commitment · Growth

RIGHT EQUIPMENT · RIGHT MATERIALS · RIGHT TIME

LEADERSHIP

Founder-led. On every project.

KCE is a proprietorship run by its founder, who stays directly involved in every project — reviewing requirements, coordinating equipment and people, and following up on site through to handover.

FOUNDER & PROPRIETOR

Md. Humayun Kabir

Logistics & Supply Chain Expert · Project Handover Specialist

Md. Humayun Kabir founded Khulna City Engineering in 2018 and leads every project personally. He reviews each enquiry, coordinates the equipment, materials and people a job needs, and supervises the site through to handover — so every client has one accountable contact from first RFQ to final delivery.

HONORARY TECHNICAL CONSULTANT — KHAIRUL ISLAM

Senior Mechanical Engineer · Technical Manager, DEC-OGECO

API 510 Pressure Vessel Inspector · NEBOSH HSE Certificate in Process Safety Management · PMP® · PGDSCM

WHAT WE MEASURE OURSELVES AGAINST

QUALITY

Correct specifications confirmed before purchase.

SAFETY

PPE and qualified personnel on every job.

COMMITMENT

One dedicated contact through to handover.

GROWTH

Long-term partnerships, not one-off orders.

01 · CONSTRUCTION

Construction & project site support

KCE delivers construction and industrial site works on a project or work-order basis. Our field experience covers LPG and energy-sector environments — mounded, spherical and bullet tanks — together with the mechanical, fabrication, piping, structural and civil work around them.

CIVIL & GENERAL CONSTRUCTION

Site preparation · Civil supporting works · General construction · Maintenance and project-based site activities

MECHANICAL & FABRICATION

Steel fabrication · Welding · Fitting · Equipment installation support · Modification and maintenance works

PIPING & STRUCTURAL WORK

Piping support · Pipe fitting · Structural steel fabrication and erection · Platforms and project steel works

TANK & INDUSTRIAL PROJECTS

Mounded, spherical and bullet tank projects · Associated structural, mechanical and site-support activities

HEAVY EQUIPMENT RENTAL

- Mobile and crawler cranes, matched to lifting capacity
- Dump trucks for earthwork and material movement
- Excavators and wheel loaders
- Forklifts for plant, warehouse and site handling
- Boom lifts and man lifts for elevated access
- Low-bed trailers, mobilization and demobilization
- Short- and long-term rental, with operators where required

SKILLED MANPOWER

- Certified and experienced welders, subject to project qualification
- Pipe fitters and mechanical fitters
- Fabricators and structural workers
- Foremen and site supervisory support
- Riggers, helpers and general workers
- Mechanics, electricians and technicians

FOR A FAST RENTAL QUOTATION, SHARE

Equipment type · Required capacity · Quantity · Project location · Start date · Rental duration · Working hours / shift · Operator requirement · Fuel basis · Mobilization / demobilization · Site and HSE documentation

02 · TRADING & SUPPLY

Industrial trading & supply

We trade and supply piping, flow-control, instrumentation, compressed-air and renewable-energy products for plants, factories, EPC projects and building services. Every order is quoted against your RFQ, BOQ or technical specification, with brand and origin confirmed before purchase.

PIPES & TUBING

MS / carbon steel pipes · GI pipes · Stainless steel pipes
· Seamless and ERW pipes · Copper and PE tubing

PIPE FITTINGS & FLANGES

Elbows, tees, reducers, couplings · Weld-neck, slip-on and blind flanges · Unions, nipples, caps · Gaskets and bolting

VALVES

Ball valves · Gate and globe valves · Check / non-return valves · Bypass and pressure-relief valves · Needle valves · Solenoid valves and coils

INSTRUMENTATION & CONTROLS

Pressure gauges · Temperature gauges · High- and low-pressure regulators · Gas leak detectors · Control panels and accessories

HOSES & COUPLINGS

Industrial hose pipes and assemblies · Breakaway and pull-away couplings · ACME and dry-break couplings · Hose accessories

COMPRESSED AIR & DRYING

Refrigerated air dryers (fridge driers) · Air compressors · Line filters and moisture separators · Air-line fittings

RENEWABLE ENERGY

Solar panels · Renewable / solar batteries · On-grid and off-grid solar systems · Solar CCTV systems

SEALS & CONSUMABLES

Rubber bushes · Sealing sleeves · Plastic caps · O-rings, gaskets and sealing tapes

RIGHT SPECIFICATION · RELIABLE SOURCING · TIMELY DELIVERY

02 · TRADING & SUPPLY

Tools, materials & site supply

For EPC, industrial and construction sites we supply tools, structural steel, construction materials, safety products and temporary site facilities — one responsive point of contact for many supply categories, reducing sourcing time for foreign contractors.

POWER TOOLS & EQUIPMENT

Generators · Welding machines · Grinding and cutting machines · Drilling machines · Demolition and rotary hammers · Air compressors · Extension and site electrical equipment

SAFETY TOOLS & PPE

Safety helmets · Safety shoes · Gloves · Safety harnesses · Reflective vests · Goggles and face shields · Ear and respiratory protection · Barricade and warning items

MS & STRUCTURAL MATERIALS

MS angle · MS beam / I-beam · Channel · MS plate · Flat bar · Round bar · MS pipe · Square and rectangular hollow sections · Other structural steel to specification

CONSTRUCTION & SITE MATERIALS

Profile sheets · Roofing and cladding materials · Fasteners · Welding electrodes and consumables · Cutting and grinding discs · General construction materials

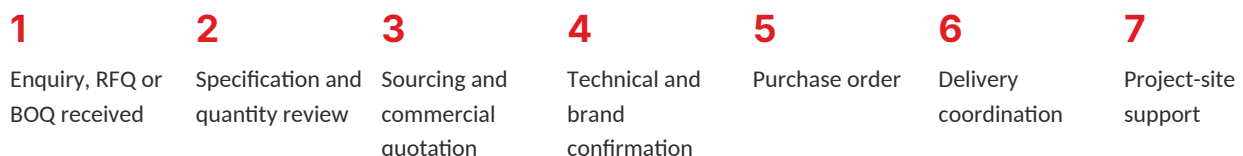

TEMPORARY SITE FACILITIES

Mobile toilets · Portable site facilities · Temporary project-support items · Site utility requirements to client enquiry

PROJECT-SPECIFIC SUPPLY

Mechanical and fabrication materials · Electrical and site-support items · Industrial consumables · Tools and accessories to RFQ, BOQ and specification

OUR SUPPLY PROCESS

03 · ENGINEERING

Engineering through established partners

KCE's engineering work is sourced mainly through established European and Japanese engineering companies and our energy-sector partners. We provide the local execution capacity these assignments need in Bangladesh: site coordination, skilled trades, workshop, equipment and materials.

ENGINEERING SOURCED THROUGH

DYOVANT LIMITED

Engineering and project assignments delivered with KCE's local site and resource support.

DEC-OGECO (BELGIUM)

International engineering and EPC organisation; KCE has supported its project requirements in Bangladesh since 2018.

DHAKA SETUP

Dhaka-based system engineering company — equipment installation, piping and reticulation, and maintenance services.

DINGSHENG ENERGY LIMITED

Energy engineering, EPC and equipment supply company — installation, testing and commissioning support.

OUR ENGINEERING SCOPE

- **Piping & reticulation** — industrial and building piping networks, installation and testing
- **Mechanical installation** — equipment setting, skids, supports and platforms
- **Tank & storage works** — site activities for mounded, spherical and bullet tanks
- **Solar energy systems** — on-grid and off-grid installation, panels and battery banks
- **Testing & commissioning support** — pressure testing and pre-commissioning activities
- **Maintenance & after-sales** — periodic maintenance, troubleshooting and modification works

HOW AN ASSIGNMENT RUNS

1	2	3	4	5	6
Requirement review	Engineering coordination	Procurement	Installation	Testing & commissioning	Handover

OWN WORKSHOP · APPROX. 0.060 ACRE

Our own workshop facility supports fabrication, equipment preparation, maintenance and project-related technical work — so we respond quickly to engineering and site requirements.

04 · INTERIOR DESIGN

Interior design & fit-out

Our interior design division brings site discipline to living and working spaces. We take a space from first brief to finished room — design, materials, execution and handover — under one team, with our own trading and supply network behind every finish.

SPACES WE DESIGN

Homes & apartments · Offices & corporate floors · Showrooms & retail · Restaurants & cafés · Hotels & guest houses · Clinics & institutions

CONCEPT & SPACE PLANNING

Site measurement, functional layouts, furniture planning and a design direction agreed with you before any work starts.

3D VISUALISATION

Realistic 3D views of each space, so materials, colours and lighting are approved before execution.

CEILINGS, PARTITIONS & WALLS

Gypsum false ceilings · Glass and board partitions · Wall cladding and panelling · Paint and wallpaper

FLOORING & FINISHES

Tiles · Vinyl and laminate · Wooden flooring · Stone and decorative finishes

FURNITURE & JOINERY

Custom furniture · Kitchen cabinets · Wardrobes · Office workstations and reception counters

LIGHTING & ELECTRICAL

Lighting design · Decorative and functional fixtures · Electrical points and finishing works

05 · PREMIUM HEALTH IMPORTS

Premium. Original. Imported.

Alongside industry, KCE imports a small, carefully chosen range of premium health foods — products valued for their quality and origin, supplied original and properly packed. Product origin, grade and pack details are shared with every quotation.

AVOCADO OIL

Premium avocado oil, naturally rich in monounsaturated fats. Its high smoke point makes it suited to everyday cooking as well as dressings, finishing and wellness use.

Cooking & dressing grades · Retail bottles · Bulk packs on request

RWANDAN & AFRICAN COFFEE

Original single-origin Arabica from the highlands of Rwanda and East Africa — known for bright, clean, fruit-forward cups. Imported for coffee lovers, cafés and corporate gifting.

Whole bean · Ground · Retail & café packs

MACADAMIA NUTS

Premium macadamia nuts with a rich, buttery taste and naturally high healthy-fat content — a nutritious snack and a premium ingredient for baking and gifting.

Kernels · In-shell · Raw or roasted, subject to availability

RETAIL & HOME

Original products for families who read the label.

CORPORATE GIFTING

Premium gift packs for clients, partners and staff.

WHOLESALE & HORECA

Supply for shops, cafés, hotels and restaurants.

EXPERIENCE & APPROACH

Experience that started on site

Since 2018 we have supported leading European and Japanese engineering and EPC companies and established LPG and industrial companies in Bangladesh — including LPG storage and terminal projects with mounded, spherical and bullet tanks.

WHO WE HAVE WORKED WITH

EUROPEAN COMPANIES Engineering & EPC	JAPANESE COMPANIES Engineering & EPC	BANGLADESHI LPG COMPANIES Storage & terminals
INDUSTRIAL CLIENTS Energy, plant & factory	TANK PROJECTS Mounded · spherical · bullet	SITE SUPPORT Equipment, materials, manpower

WHY EPC CONTRACTORS CHOOSE KCE

TECHNICAL SUITABILITY Every order reviewed against your RFQ, BOQ or specification; brand and origin confirmed before purchase.	RESPONSIVE COORDINATION One local contact across supply, equipment and manpower — less sourcing time for your team.	DOCUMENTATION READY Trade Licence, TIN Certificate and vendor-registration documents on request.
SITE & DELIVERY PLANNING Schedule and site conditions reviewed upfront; mobilization and delivery coordinated.	OWN WORKSHOP Fabrication, equipment preparation and maintenance in-house.	FOUNDER-LED The founder is directly involved in every project, enquiry to handover.

HOW WE WORK WITH YOU

1 Send your enquiry RFQ, BOQ, rental requirement or item list	2 Specification review Quantity, schedule and site conditions checked	3 Sourcing & quotation Equipment, materials and manpower quoted	4 Mobilize or deliver After order confirmation, to your site	5 Site support On call for follow-up and site needs
---	---	---	--	---

WE WELCOME

Vendor registration, supply RFQs, equipment rental enquiries, subcontracting, interior projects and health-product orders — from EPC contractors, industry, businesses and individuals.

ON SITE

Equipment, supply & site work

01 Crane support at a spherical tank construction site

02 Md. Humayun Kabir with the site team on a tank project

03 Crane support for bullet tank installation

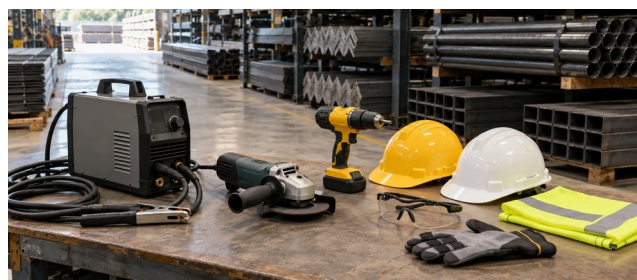

04 Low-bed transport and equipment mobilization

05 Excavators and wheel loaders for earthwork

06 Steel fabrication and welding

07 Tools, PPE and structural materials supply
