ABOUT US

One local partner. Five business lines.

Khulna City Engineering (KCE) is a founder-led construction, trading and engineering company supporting international projects from Khulna since 2018 — coordinated by one responsive local partner for EPC contractors, industrial companies, developers and private clients.

Our journey began on site, supporting leading European and Japanese engineering and EPC companies and established Bangladeshi LPG companies on storage and terminal projects. That work taught us what a project needs from a local partner: the right specification, the right materials and the right time.

01
CONSTRUCTION

Civil, mechanical and tank-related site works, heavy equipment rental and skilled manpower.

02
TRADING & SUPPLY

Pipes, valves, bearings, instrumentation, tools, PPE and construction materials.

03
ENGINEERING

Assignments through established European and Japanese engineering partners.

04
INTERIOR DESIGN

Turnkey interiors in Khulna city — design, fit-out, furniture and lighting.

05
LPG & GAS SYSTEMS

Reticulation, autogas and industrial gas with Dhaka Setup and Thermoflux Engineering.

OUR VALUES

Quality · Safety
Commitment · Growth

RIGHT EQUIPMENT · RIGHT MATERIALS · RIGHT TIME

LEADERSHIP

Personally supervised, enquiry to handover.

KCE is a proprietorship run by its founder, who stays directly involved in every project. You deal with the decision-maker, not a chain of departments.

FOUNDER & PROPRIETOR

Md. Humayun Kabir

Logistics & Supply Chain Expert · Project Handover Specialist
h.kabir@khulnacityengineering.com

Md. Humayun Kabir founded Khulna City Engineering in 2018 and leads every project personally. He reviews each enquiry, coordinates the equipment, materials and people a job needs, and supervises the site through to handover — so every client has one accountable contact from first RFQ to final delivery.

- Every RFQ, BOQ and rental request reviewed personally
- Mobilization, deliveries and manpower monitored directly
- On-site presence for project start-up and follow-up

MANAGER, ENGINEERING & OPERATIONS

Abul Bashar Mechanical Engineer · Bearing & Spare Parts Specialist
a.bashar@khulnacityengineering.com

HONORARY TECHNICAL ADVISER

Khairul Islam Mechanical Engineer · Technical Manager, DEC-OGECO
API 510 Pressure Vessel Inspector · NEBOSH HSE Certificate in Process Safety Management · PMP® · PGDSCM

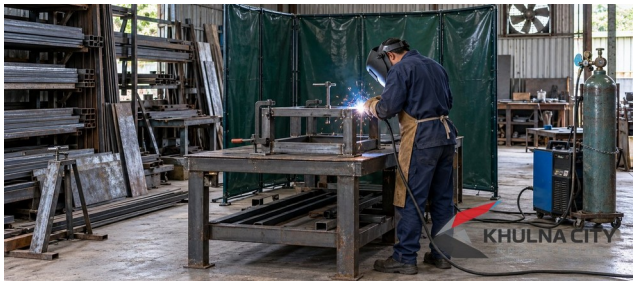

01 · CONSTRUCTION

Construction & site support

Civil construction, piping, structural steel and tank-related site works on a project or work-order basis — backed by heavy equipment and skilled manpower for your schedule.

Earthwork & site development

Steel fabrication & welding

CIVIL CONSTRUCTION

Industrial and equipment foundations, concrete works, building and site development, drainage and utility trenches.

MECHANICAL & FABRICATION

Steel fabrication, welding, fitting, equipment installation support and maintenance works.

PIPING & STRUCTURAL

Pipe fitting and supports, structural steel fabrication and erection, platforms.

TANK PROJECTS

Mounded, spherical and bullet tanks with associated structural and site works.

SKILLED MANPOWER

- Certified welders, subject to project qualification
- Pipe fitters, fabricators, riggers and electricians
- Foremen and site supervision, mobilized to your schedule

01 · CONSTRUCTION

Heavy equipment rental

Cranes, earthmoving, lifting and transport equipment matched to your lift, load and schedule — with operators where required.

Crane support for bullet tank installation

Low-bed transport and mobilization

Mobile & crawler cranes

Excavators & wheel loaders

Forklifts

AVAILABLE ON RENTAL

- Mobile and crawler cranes, matched to lifting capacity and site access
- Dump trucks, excavators and wheel loaders
- Forklifts, boom lifts and man lifts
- Low-bed trailers for mobilization and demobilization

Short- and long-term rental · Operators where required · Third-party inspection certificates

02 · TRADING & SUPPLY

Industrial trading & supply

Piping, flow-control, instrumentation, bearings and energy products for plants, factories and EPC projects — quoted against your RFQ or BOQ, with brand and origin confirmed before purchase.

Pipes, fittings & valves

Instrumentation & compressed air

LPG reticulation materials

PIPES, FITTINGS & FLANGES

MS, GI and stainless pipes, seamless and ERW, elbows, tees, flanges, gaskets and bolting.

VALVES

Ball, gate, globe, check, relief, needle and solenoid valves.

INSTRUMENTATION & CONTROLS

Pressure and temperature gauges, regulators, gas leak detectors and control panels.

COMPRESSED AIR & ENERGY

Refrigerated air dryers, compressors, filters, solar panels and renewable batteries.

INDUSTRIAL BEARINGS

Ball, roller, thrust and mounted bearings — sourced with Rupsha Bearing House to your bearing number and brand.

LPG MATERIALS & CONSUMABLES

Gas-line pipes and fittings, regulators, manifolds, meters, hoses, seals and gaskets.

05 · LPG & GAS SYSTEMS · SPECIAL SECTION

LPG reticulation, autogas & industrial gas

Complete LPG systems — **design, supply and erection** — delivered in partnership with **Dhaka Setup** and **Thermoflux Engineering**, with KCE's construction, supply and site teams.

LPG RETICULATION

Apartments, hotels, hospitals and commercial kitchens — manifolds, regulators, risers and meters.

AUTOGAS STATIONS

Turnkey stations — tank, pump, dispenser, piping, control panel and commissioning.

INDUSTRIAL GAS

Bulk storage, vaporizers, regulating stations and plant distribution networks.

DESIGN · SUPPLY · ERECTION

1
Design
Survey, sizing, layout and P&ID

2
Supply
Pipes, valves, regulators, tanks

3
Erection
Installation and welding

4
Testing
Pressure and leak testing

5
Handover
Commissioning and maintenance

PARTNER · DHAKA SETUP
LPG system engineering & equipment

PARTNER · THERMOFLUX
Gas-system design & engineering

KCE · LOCAL DELIVERY
Construction, supply & after-sales

02 · TRADING & SUPPLY

Tools, materials & site supply

Power tools, PPE, structural steel and site materials for EPC and construction sites — send one list and we reply with a quotation.

POWER TOOLS & EQUIPMENT

Generators, welding machines, grinders, drills and compressors.

SAFETY TOOLS & PPE

Helmets, shoes, gloves, harnesses, vests and protection.

MS & STRUCTURAL

Angle, beam, channel, plate, bar, pipe and hollow sections.

SITE MATERIALS

Profile sheets, fasteners, electrodes and cutting discs.

SITE FACILITIES

Mobile toilets, portable cabins and utility items.

PROJECT-SPECIFIC SUPPLY

Items sourced to your RFQ, BOQ and specification.

03 · ENGINEERING

Engineering through established partners

KCE's engineering work is sourced mainly through established European and Japanese engineering companies and our energy-sector partners — with KCE providing the local execution capacity in Bangladesh.

ENGINEERING SOURCED THROUGH

DYOVANT LIMITED

Engineering and project assignments with KCE's local site support.

DEC-OGECO (BELGIUM)

International engineering and EPC organisation, supported since 2018.

DHAKA SETUP

System engineering — installation, piping, reticulation and maintenance.

DINGSHENG ENERGY LIMITED

Energy engineering, EPC and equipment supply.

OUR ENGINEERING SCOPE

- **Piping & reticulation** — industrial and building networks, installation and testing
- **Mechanical installation** — equipment setting, skids, supports and platforms
- **Solar energy systems** — on-grid and off-grid installation
- **Testing & maintenance** — pressure testing, pre-commissioning and after-sales

WORKSHOP ACCESS Approx. 0.060 acre fabrication workshop, jointly run with our partners, for fabrication, equipment preparation and maintenance.

04 · INTERIOR DESIGN · SPECIAL FOCUS: KHULNA CITY

Turnkey interiors in Khulna

Complete interiors for homes, offices and commercial spaces across Khulna city — one team from first sketch to the day you move in.

DESIGN & 3D

Space planning, layouts and 3D views approved before work starts.

CEILINGS & WALLS

Gypsum ceilings, partitions, panelling, paint and wallpaper.

FLOORING & FINISHES

Tiles, vinyl, laminate, wooden flooring and stone.

KITCHEN & FURNITURE

Kitchen cabinets, wardrobes, workstations and counters.

ELECTRICAL & LIGHTING

House wiring, DB boards, switches and decorative lighting.

FIXTURES & FINAL FIT

Fixtures, blinds, hardware and final fitting.

FROM BRIEF TO HANDOVER

1
Site visit
Needs and measurements

2
Concept & 3D
Visuals for approval

3
Design & BOQ
Fixed quotation

4
Execution
Supervised fit-out

5
Handover
Snag check and keys

EXPERIENCE & APPROACH

Experience that started on site

Since 2018 we have supported leading European and Japanese engineering and EPC companies and established LPG and industrial companies in Bangladesh — including storage and terminal projects with mounded, spherical and bullet tanks.

WHY EPC CONTRACTORS CHOOSE KCE

TECHNICAL SUITABILITY

Every order reviewed against your RFQ, BOQ or specification.

RESPONSIVE COORDINATION

One local contact across supply, equipment and manpower.

DOCUMENTATION READY

Trade Licence, TIN and vendor-registration documents on request.

FOUNDER-LED

The founder is directly involved in every project, enquiry to handover.

HOW WE WORK WITH YOU

1 **Enquiry**
RFQ, BOQ or item list

2 **Review**
Specification and schedule

3 **Quotation**
Sourced and quoted

4 **Delivery**
To your site and schedule

5 **Support**
Follow-up on site
